

SOHAM WADALE

AIML Engineering Pursuer

Phone: +91 8766699532

Email: sr4sohamwadale@gmail.com

LinkedIn: <https://www.linkedin.com/in/soham-wadale-662532337/>

PROFESSIONAL SUMMARY

Motivated and detail-oriented AI & ML Engineering student with a strong foundation in data analytics, data engineering, and machine learning. Proficient in JAVA, SQL, with hands-on experience in data preprocessing, visualization, and model building. Passionate about leveraging data-driven insights to solve real-world problems and optimize business decisions.

EDUCATION

- B.Tech in CSE(AIML): **7.09 CGPA (2024-27)**
Sanjivani University, Kopergaon
- Diploma in Mechatronics Engineering: **78.67% (2021-2024)**
Guru Gobind Singh Polytechnic, Nashik
- SSC 10th: **87.8% (2020-21)**
Eureka Infosys School, Chh. Sambhajinagar

TECHNICAL SKILLS

- Programming Languages: JAVA, Python
- Data Base: Oracle SQL
- Visualization Tools: PowerBI
- AI Tools: ChatGPT

EXPERIENCE

Assistant Supervisor (Jan 2024 – May 2024)

CEAT Tyres Pvt. Ltd.:

Worked at CEAT Tyres, Satpur, Nashik branch for 5 months as assistant supervisor in the manufacturing dept. Was tasked to observe the manufacturing line processes, find faults and their causes, and suggest and implement efficient solutions.

PROJECTS

1. Foreign Material Detector:

- The metal detectors placed could not detect the non-metal foreign materials (like wooden shavings, tiny stones, etc.) in the rubber compound.
- Using technologies like the capacitance and the potential difference in the capacitance between different materials as base, and an iot model using Arduino as microcontroller.
- We designed a foreign material detector using capacitive plates to detect the capacitance of the material, which would respond after it detects any anomalies in the capacitance.

2. Smart Locker System:

- The locker systems placed in the public places offer less security and require more manpower.
- Using technologies like RFID card recognition, and object detection using IR sensor and integrating with an iot model based on ESP32, offering Wifi communication, and real-time database updating capabilities.
- We designed a smart locker system which uses various iot technologies, and integrated them with Wifi and real-time database to provide a flexible, secure and more efficient experience.

CERTIFICATES

- **EF-SET English Test**

69 score.

- **NPTEL Examination**

60%

PERSONAL INFORMATION

- **DoB:** 18-11-2005
- **Languages:** English, Hindi, Marathi, Japanese
- **Address:** Waluj, Gangapur, Chh. Sambhajinagar
- **Github:** <https://github.com/SR4Xlucifer>
- **Strength:** Quick learner, good at working in teams

DECLARATION

I hereby declare that all the information in this resume is true.

- **Place:** Kopergaon
- **Date:** 13-05-2025
